TERNIENERGIA: established a subsidiary in Poland

- **TerniEnergia Polska Sp.z.o.o. will operate in the renewable energy sectors, in the recovery of materials and energy and decommissioning of industrial plants**
- **The operation is part of the strategy aimed to strengthen the internationalization process.**

Terni, August 7th, 2012

TerniEnergia, active in the renewable Energy field and listed on Star Segment of Borsa Italiana, as part of its development strategy, completed yesterday the constitution of the Company TerniEnergia Polska Sp.zoo. in Krakow .

The Polish subsidiary, wholly owned by TerniEnergia, will have as its goal the development, construction and operation of plants producing energy from renewable sources, plants for *waste management*, for treatment and recovery of used tires and in general, for the recovery of materials and energy, energy efficiency, and decommissioning and revamping of industrial plants, recovery of metals from demolition and reclamation of industrial sites.

Stefano Neri, Chairman and Ceo of TerniEnergia commented as follows:

“The setting up of TerniEnergia Polska, which follows the one of TerniEnergia Hellas in Greece, represents a new step in the internationalization strategy of the Group. TerniEnergia aims to achieve this goal also because of the deliberate merger with TerniGreen, creating a unifying entity with an international vision in the rapidly expanding sector of the Green Economy. We believe that the development of business abroad, particularly in high-growth countries such as Poland and forecasted in other continents, represents a great opportunity to strengthen the market position and maximize the prospects of the Group's value creation”

This Press-Release is also available on the Company website www.ternienergia.com.

PRESS RELEASES

Terni, August 7th, 2012

TerniEnergia, a company incorporated in September of 2005 and part of Terni Research Group, operates in renewable energy sector and is active in the photovoltaic field. TerniEnergia operates as system integrator, with a turn-key offer of industrial sized photovoltaic plants, on behalf of third parties and on its own mainly through joint venture companies with EDF EN Italia S.p.A. and other leading national players. The Company intends to strengthen its sale activity of energy produced from solar source.

TerniEnergia, through its controlled company Lucos Alternative Energies, operates in the development of energy efficient plants both through EPC scheme and FTT scheme (Financing Through Third Parties), pursuing the objectives of increasing energy production from renewable sources, of energy saving and reduction of emissions as set forth by environmental European policy.

TerniEnergia is listed on STAR segment of Borsa Italiana S.p.A.
