TerniEnergia: extended the contract with Ecopneus for the delivery of end of life tires up to December 2018

- **From this backlog estimated revenues of up to Euro 1.5 million for and the delivery of up to 15,000 tons/year in the recycle plants of Nera Montoro (TR) and Borgo Val di Taro (PR)**

Terni, March 31, 2017

TerniEnergia announces that Ecopneus SCPA, the non-profit consortium organization for the tracking, collection, treatment and recovery of end of life tires (ELT), formed by the leading tire manufacturers operating in Italy for "granulation/shredding activities of ELT in Italy", has extended until December 2018 the agreement for the delivery of ELT (160,103 CERs) to the Group's plants in Italy, pending the discussion around two announced ministerial decrees of Italian Ministero dell'Ambiente.

According to the contract extension, TerniEnergia can treat, in the two advanced centers of ELT recovery of Nera Montoro (TR) and Borgo Val di Taro, up to 15,000 tons of ELT delivered only by Ecopneus for an annual delivery tariff of around Euro 1.5 million.

TerniEnergia is the first smart energy company active in the areas of renewable energy, digital energy, energy efficiency, waste and energy management, listed on the Star segment of the Italian Stock Exchange and part of the Italeaf Group.

This press release is also available on the Company's website: www.ternienergia.com.

TERNIENERGIA (TER.MI), established in September 2005, and part of Italeaf Group, is the first Italian smart energy company, committed to bring worldwide integrated and sustainable energy solutions. Organized into four business lines (Technical services, Energy management, Energy efficiency and Cleantech), with about 500 employees and a geographic presence in almost the continents, with operational and sales offices, TerniEnergia develops solutions, innovative products and services based on digital and industrial technologies for the energy sector.

TerniEnergia, also through its subsidiaries, shall pursue the objectives of increasing energy production from renewable sources, energy efficiency and emissions reduction, as laid down by European environmental policy, and participates actively in the distributed power generation revolution and energy smart grids.

TerniEnergia is the ideal partner for large utilities, distributors and grid operators, power producers, public authorities, industrial customers and investors who intends to carry out large projects for the production of renewable energy plants and modern systems with high energy efficiency, solutions for the management and maintenance of the infrastructure and the electrical systems. TerniEnergia, through a complete technological and commercial offer, develops and provides technologies, turn-key services and solutions for energy consumers in the public and private sectors. The company is listed on the STAR segment of the Italian Stock Exchange.
