TERNIENERGIA: the Regional Administrative Court of Sardinia grants the suspension relating to the revocation of the Single Authorizations of two photovoltaic plants in JV

TerniEnergia, a company listed on the Star segment of the Italian Stock Exchange and part of the Italeaf Group, announces that - in relation to the information already communicated in the Interim Report on Operations as at 30 September 2017 - the Regional Administrative Court of Sardinia has suspended, with two separate orders, the revocation of the authorisations for two greenhouse photovoltaic plants owned respectively by Società Agricola Fotosolara Bonnanaro Srl (about 0.7 MWp in power) and Società Agricola Fotosolara Oristano Srl (about 0.9 MWp in power), JV companies in which TerniEnergia holds 50% of the share capital.

The Region of Sardinia, with two separate determinations, had, in fact, ordered the revocation of the single authorisations for the two plants. The Sardinian Regional Administrative Court upheld the precautionary requests made by the Company, granting the suspension and ordering the trial in December 2018.

TerniEnergia was assisted in court by Andrea Sticchi Damiani.

This press release is also available on the Company's website: www.ternienergia.com.

TERNIENERGIA (TER.MI), established in September 2005, and part of Italeaf Group, is the first Italian smart energy company, committed to bring worldwide integrated and sustainable energy solutions. Organized into two strategic business units (Assets and Smart solutions and services), with about 400 employees and a geographic presence in almost the continents, with operational and sales offices, TerniEnergia develops solutions, innovative products and services based on digital and industrial technologies for the energy sector. TerniEnergia, also through its subsidiaries (Softeco Sismat, Selesoft Consulting, Greenled Industry, GreenAsm, Wisave, Ant Energy), shall pursue the objectives of increasing energy production from renewable sources, energy efficiency and emissions reduction, as laid down by European environmental policy, and participates actively in the distributed power generation revolution and energy smart grids. TerniEnergia is the ideal partner for large utilities, distributors and grid operators, power producers, public authorities, industrial customers and investors who intends to carry out large projects for the production of renewable energy plants and modern systems with high energy efficiency, solutions for the management and maintenance of the infrastructure and the electrical systems. TerniEnergia, through a complete technological and commercial offer, develops and provides technologies, turn-key services and solutions for energy consumers in the public and private sectors. The company is listed on the STAR segment of the Italian Stock Exchange.
