

**PRESS RELEASE**  
**Terni, September 30, 2017**

---

**TERNIENERGIA: undersigned trade union agreement for the activation  
of social safety benefits**

**TerniEnergia**, a company listed on the Star segment of the Italian Stock Exchange and part of the Italeaf Group, announces the signing of an agreement with the trade unions to activate the social benefits for the workers made redundant, following the withdrawal of the collective layoff measure announced on 4 August 2017.

In fact, the company has decided to use social safety nets for a period of one year and for 45 employees in order to manage the transition to strategic repositioning in a more effective and sustainable way. In particular, the measures provided for in the agreement will allow considerable savings to be made, while at the same time allowing the company to maintain full operational continuity with respect to the collective redundancy that would have compromised its functionality.

*This press release is also available on the Company's website: [www.ternienergia.com](http://www.ternienergia.com).*

**TERNIENERGIA (TER.MI)**, established in September 2005, and part of Italeaf Group, is the first Italian smart energy company, committed to bring worldwide integrated and sustainable energy solutions. Organized into four business lines (Technical services, Energy management, Energy efficiency and Cleantech), with about 400 employees and a geographic presence in almost the continents, with operational and sales offices, TerniEnergia develops solutions, innovative products and services based on digital and industrial technologies for the energy sector.

TerniEnergia, also through its subsidiaries (Softeco Sismat, Selesoft, Greenled Industry, GreenAsm, Wisave, Ant Energy), shall pursue the objectives of increasing energy production from renewable sources, energy efficiency and emissions reduction, as laid down by European environmental policy, and participates actively in the distributed power generation revolution and energy smart grids.

TerniEnergia is the ideal partner for large utilities, distributors and grid operators, power producers, public authorities, industrial customers and investors who intends to carry out large projects for the production of renewable energy plants and modern systems with high energy efficiency, solutions for the management and maintenance of the infrastructure and the electrical systems. TerniEnergia, through a complete technological and commercial offer, develops and provides technologies, turn-key services and solutions for energy consumers in the public and private sectors. The company is listed on the STAR segment of the Italian Stock Exchange.
