

TERNIENERGIA: the Group's digital company Softeco signs a strategic alliance in the energy efficiency sector in Sicily with Consorzio Ecodomus

TerniEnergia, a smart company listed on the Italian Stock Exchange's electronic share market (MTA) and part of the **Italeaf** Group, announces that the digital company **Softeco** Sismat signed today a partnership agreement with "Consorzio Ecodomus: Sustainable construction, energy saving and technologies powered by renewable sources", for the joint development of commercial activities in the sectors of sustainable building and energy efficiency.

In particular, the strategic alliance will provide for:

- actions of mutual enhancement and promotion, in the Sicilian regional territory, of the products and/or services offered by each of the two Parties;
- the joint development of BEMS (Building Energy Management System) solutions for green and smart building, with particular regard to solutions for works and public bodies;
- joint participation in public-private partnerships, public tenders and procedures or in other forms established by the procurement code, in their respective fields of competence.

Consorzio Ecodomus, based in Licata (AG) is the instrumental body of the Ecodomus District, a cluster of companies from the Sicily Region that includes 152 companies located in 33 municipalities, 25 public sector bodies and 13 municipalities. Among the main actions of the body are the promotion of energy efficiency in end use and smart energy, the reduction of energy consumption of public buildings and social housing, the adoption of innovative technologies and efficient energy management control systems, the spread of micro-generation distributed from renewable sources and cogeneration, the redevelopment of the energy and environmental sector of buildings and public facilities through interventions on individual buildings and/or entire districts of public property or public use.

This press release is also available on the Company's website: www.ternienergia.com.

TERNIENERGIA (TER. MI), established in September 2005 and part of the Italeaf Group, is the first Italian global technological enabler, committed to bringing energy solutions and efficient recovery of integrated and sustainable resources to the world. Organized into two strategic business lines (Assets and Smart solutions and services), with about 300 employees and a geographical presence worldwide, with operative and commercial offices, TerniEnergia develops innovative solutions, products and services based on digital and industrial technologies for the energy supply chain, grids, smart mobility, industrial automation and the recovery of marginal resources. TerniEnergia, also through its subsidiaries (Softeco Sismat, Greenled Industry, GreenAsm, GreenAsm, Purify, Wisave, Ant Energy), pursues the objectives of increasing energy production from renewable sources, saving energy and reducing emissions and actively participates in the energy revolution of distributed power generation and smart grids, with innovative digital solutions. TerniEnergia is the ideal partner for large utilities, distribution operators and network operators, energy producers, public administrations, industrial customers and investors who intend to realize large projects for the production of renewable energy, modern systems and plants with high energy efficiency, solutions for the management and maintenance of infrastructure and electrical installations. TerniEnergia has completed its transformation from a leader in the international photovoltaic market into a smart energy company and technological enabler for the sustainable use of resources through a complete commercial offer of solutions, the development and supply of digital technologies and the creation of "intelligent" services and solutions aimed at public and private customers in emerging sectors. TerniEnergia is listed on the MTA of Borsa Italiana.
