

PRESS RELEASE
Terni, October 9, 2017

**TERNIENERGIA: Softeco Sismat signs a contract for Enel Smart Grids
Remote Control Services**

- **The agreement for a total value of Euro 0.84 million will involve the Group's digital company in a temporary partnership with Siemens and Leonardo**
- **Softeco Sisma twill provide solutions for corrective maintenance and inventory management on behalf of e-distribuzione SpA**
- **The Group's expertise in the Smart Solutions and Services sector has been recognized**

TerniEnergia, a company listed on the Star segment of the Italian Stock Exchange and part of the Italeaf Group, announces that Softeco Sismat - the Group's digital company -, in a temporary business partnership with Siemens and Leonardo, has signed a corrective maintenance contract on behalf of e-distribuzione SpA, an Enel Group company active in the network and smart grids management sector.

The contract provides for the provision of remote control services for e-distribution networks for 2017-2018 for a total amount of Euro 0.84 million.

In particular, the consortium between Siemens, Softeco Sismat and Leonardo, will be responsible for corrective, functional, emergency and maintenance services, specialist assistance and warehouse management of remote control systems and e-distribution.

The agreement with primary partners in the sector and the award of the contract testify to the acknowledged competence of the TerniEnergia Group as "technological enabler" in the Smart solutions and services for the energy sector and, in particular, for Smart grids, as set out in the strategic guidelines presented to the market on 29 September 2017.

This press release is also available on the Company's website: www.ternienergia.com.

TERNIENERGIA (TER.MI), established in September 2005, and part of Italeaf Group, is the first Italian smart energy company, committed to bring worldwide integrated and sustainable energy solutions. Organized into two strategic business units (Assets and Smart solutions and services), with about 400 employees and a geographic presence in almost the continents, with operational and sales offices, TerniEnergia develops solutions, innovative products and services based on digital and industrial technologies for the energy sector. TerniEnergia, also through its subsidiaries (Softeco Sismat, Selesoft Consulting, Greenled Industry, GreenAsm, Wisave, Ant Energy), shall pursue the objectives of increasing energy production from renewable sources, energy efficiency and emissions reduction, as laid down by European environmental policy, and participates actively in the distributed power generation revolution and energy smart grids. TerniEnergia is the ideal partner for large utilities, distributors and grid operators, power producers, public authorities, industrial customers and investors who intends to carry out large projects for the production of renewable energy plants and modern systems with high energy efficiency, solutions for the management and maintenance of the infrastructure and the electrical systems. TerniEnergia, through a complete technological and commercial offer, develops and provides technologies, turn-key services and solutions for energy consumers in the public and private sectors. The company is listed on the STAR segment of the Italian Stock Exchange.
